

# ANTHONY VON SCHIESZL

GAME & WEB DEVELOPER | ASPIRING GAME DESIGNER

## PROFILE

Freelance developer with 2 years of experience in web development/design and a passion for game design. I've built foundational skills through online courses and small-scale prototypes in Unity. My background as a crypto investor/trader has honed my analytical and research abilities, while my experience as an English teacher strengthens my communication and collaboration skills. I also possess basic Figma skills and have designed the logo for ZfDE GmbH, which demonstrates my eye for visual design and interface aesthetics.

- Chess

## WORK EXPERIENCE

### GAME DEVELOPMENT PROJECTS (PERSONAL)

2021-Present

- Completed intensive Unity C# courses (2D & 3D) from GameDev.tv, developing prototypes that involved level design, gameplay mechanics, and UI/UX design
- Developed small prototypes and design documents that illustrate my commitment to learning game design

### FREELANCE WEB DEVELOPER for ZfDE GmbH

2023-Present

- Designed and developed websites using HTML, CSS, Bootstrap, and Node.js to create user-friendly interfaces
- Created the company's logo using Figma, reflecting brand identity and demonstrating visual design skills

### Self-Employed Crypto Investor & Trader

2021 – Present

- Conduct market research and analyze digital asset trends to guide investment decisions
- Develop agile strategies by monitoring market trends, understanding business models

### English Teacher (Various Institutions)

07/2018 - 08/2021

- Designed and delivered engaging lesson plans, showcasing strong communication and organizational skills
- Adapted teaching methodologies to diverse audiences, reinforcing my ability to quickly learn and apply new concepts—a key asset in fast-paced game design environments
